Straumann Group generates CHF 260 million cash from sale of treasury shares to finance strategic acquisitions/investments

- Accelerated book-building offering successfully completed, reflecting strong demand for shares
- Group retains financial flexibility to further invest in growth initiatives

Basel, 6 September 2017 – The Straumann Group announced today that it has sold 432 665 of its treasury shares (representing 2.7% of the Group's share capital) through an accelerated book-building placement. The shares were broadly placed with institutional investors at a price of CHF 600 per share. The Group acquired the shares at the end of August 2016 for CHF 376.20 per share.

The Group is using the (gross) proceeds of CHF 260 million to finance the strategic acquisitions/investments announced recently in the fields of orthodontics (ClearCorrect) and digital dentistry (Dental Wings, Rapid Shape).

Peter Hackel, Chief Financial Officer, explained: "Since purchasing the shares, we have generated significant additional value for shareholders, which is reflected in the share price increase of 60%. We were able to benefit directly from this and have sold the shares to further invest in fast-growing operational businesses that will contribute to our long-term success."

About Straumann
