Create your own mix. Implant treatment planning service from Straumann®.

Straumann® Smile in a Box is a **digital, modular, integrated** treatment planning and manufacturing service to cover your surgical and prosthetic indications. You select the services you want, and we deliver everything you need for your treatment in one box.

Smile in a Box allows you to enjoy the benefits of digital dentistry and an integrated planning service. You can conveniently access the Straumann Group portfolio, centralized resources and digital workflow without investing in additional hard- or software.

Straumann® Smile in a Box makes your treatment planning simple and predictable with regard to timing time, costs and outcome.

SIMPLICITY

Simplify your treatment planning by accessing Straumann® competence, digital workflows and service resources.

TIME SAVING

Save time with modular, single source services from the Straumann Group portfolio and benefit from harmonized processes.

BUSINESS GROWTH

Grow your business by reducing chair-time and treatment visits. Profit from high-quality products and predictable prices.

Smile in a Box service options.

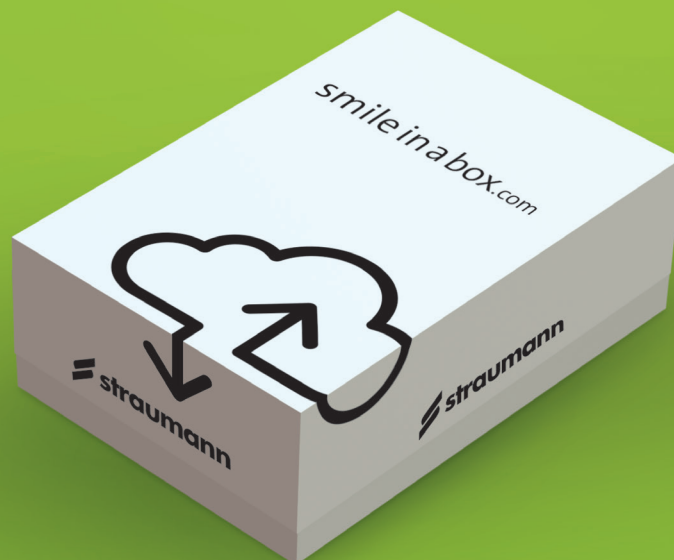

The Straumann® Smile in a Box service is accessible at any stage in your workflow. Whether you choose selected modules, or the full-service package, Smile in a Box gives you peace of mind that on the day of surgery everything you need will be available, boxed up and ready-to-use.
