Understanding your needs in all detail

COMFORTABLE PLACEMENT

Straumann® Bone Level Screw-Retained Abutments

- Carry out restorations in almost any patient situation with 3 angulations and 4 gingival heights
- Experience comfortable placement thanks to the insertion pin

SIMPLIFIED PROCEDURES

Cementation Aid for Straumann® Variobase® for Bridge/Bar Cylindrical

- A unique tool to aid dental labs
- Specially designed to support a fast, simple and reliable cementation procedure
- Even with highly tilted implants

EVERYDAY COMFORT

Straumann® Novaloc® Retentive System. When durability and endurance count.

- Hybrid denture attachment system
- In combination the materials PEEK¹ and ADLC² contribute to excellent wear resistance
- PEEK¹ matrix inserts offer excellent chemical and physical properties

¹ PEEK: Poly Ether Ether Ketone ² ADLC: Amorphous diamond-like carbon

Perfection at every step of the way

Dental technicians and restorative dentists play a significant role in improving patients' quality of life. Patients expect a highly esthetic and functional result irrespective of age, lifestyle, or medical history. Your reputation depends on providing reliable and long-lasting results.

Our implant systems are made to last with outstanding precision and consistent high quality. We are proud of their excellent performance demonstrated by countless clinical studies. Our secret? Each component is designed and validated as an integral part of an original complete system. Simply offer your patients a solution you trust.

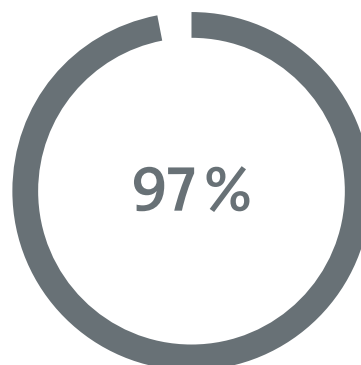

CLINICALLY PROVEN, ORIGINAL SYSTEMS

- Every year, more than a hundred peer-reviewed publications validate the performance of our products
- Long-term studies on more than 600 patients have validated survival rates of 97–99% of our implant systems over a 10-year period¹⁻⁵
- Impressive outcomes were reported by a peer-reviewed publication confirming Straumann's outstanding position in the field^{6,7}

Implant survival rate
(10 years)

Success rate of original* Straumann®
prosthetic secondary components (10 years)²

* Personal communication Dr. Wittneben: For 278 out of the 303 patients, 100% original Straumann® prosthetic components could be verified; 25 patients could not be contacted as their dentists had retired during the study period.

A portfolio to outperform.

Partner with Straumann® to leverage excellence in prosthetic dentistry with a comprehensive assortment of high-quality prosthetic solutions from one single, reliable source. Digital technology and new materials are revolutionizing dentistry. In this changing environment, let Straumann® help your dental lab stay at the cutting edge of innovation and combine expertise to deliver outstanding solutions.

The broadest range of prosthetic components

- For Tissue and Bone Level Implants

Unique 1-piece zirconia abutment for the anterior region with reduced gingival height.	One concept covering all individual needs. Choose your preferred workflow for design and production.	Comprehensive portfolio including angled screw channels. Diversity in bar designs leveraged through Createch® for Straumann.®

Your partner for success. Simply count on us.

Providing the best solutions in less time for more patients is crucial for a dental lab. With support from Straumann® you can discover a world of possibilities to drive efficiency through time and cost savings and to increase profitability in your lab.

FREE UP TIME TO FOCUS ON WHAT MATTERS

Free-up valuable time and resources to focus on your core business. No matter if you choose a fully digital, mixed or conventional approach, Straumann® provides a secure foundation where each component fits together to streamline your workflow and increase efficiency. From products, to solutions, workflows, and delivery, all from one single source you can rely on.

UNPARALLELED RANGE OF SERVICES AND GUARANTEES

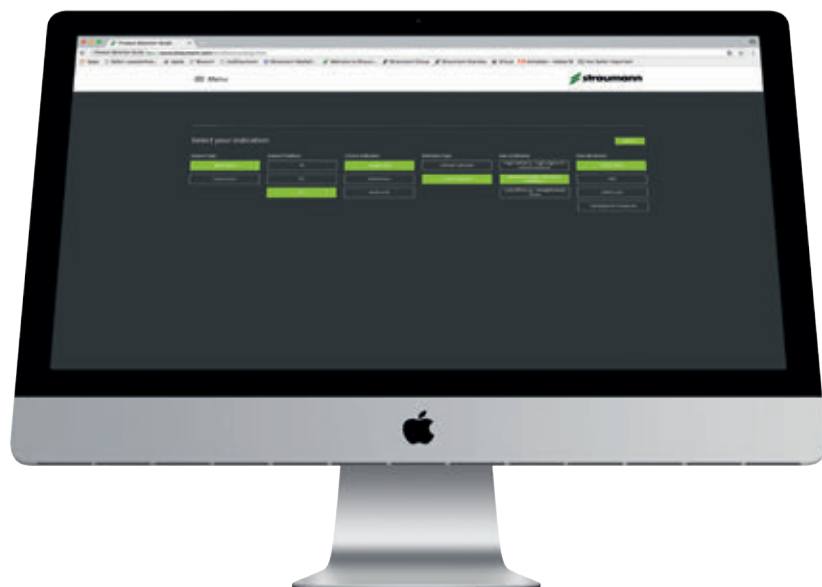

Benefit from a supportive and collaborative work environment that connects the fields of expertise. No matter the case, you can contact our expert support team who will help you find the solution you need. In case of breakage, our Straumann® guarantees give you security and ensure peace of mind.

PROSTHETIC SELECTION GUIDE

With this online tool you can easily find and share the specific abutments and auxiliaries best suited for a case. Select your solution based on implant type platform and indication and generate a detailed list with ordering numbers.

www.straumann.com/prosthetic-selection-guide*

*Tool not available in all countries

Straumann® Lifetime Guarantee

Replacement with an equivalent implant and equivalent metal abutment.

Roxolid® Lifetime Plus Guarantee

We have so much confidence in the quality and durability of every Roxolid® Implant, that we offer an industry-leading guarantee:

- The Roxolid® Lifetime Plus Guarantee not only covers the implant, but also part of the treatment cost in the event of an implant fracture
- The Roxolid® Lifetime Plus Guarantee is more than a promise to last a lifetime, it sets the benchmark and provides extra confidence in Roxolid® implants, irrespective of the type you choose

Service Set

Have a technical solution, even in challenging cases, wherever you are. Restore a Straumann® implant-abutment system when the prosthetic component is “damaged” without removing the implant.

Passion for perfection.

We share your passion for perfection, down to the smallest detail. We are constantly striving to further improve our offering of products, solutions and services, with your patient's comfort, safety and satisfaction in mind.

Our complete range of solutions designed to deliver reliability, flexibility and efficiency, while supporting you every step of the way. We adhere to the highest and most stringent quality guidelines, from product development to design and manufacture.

Everything leaves our production facilities having undergone extensive testing to ensure a perfect fit. And all with the Straumann® quality guarantee so you can deliver dental craftsmanship with digital precision.
