LOOP
A Straumann Group Service

COMMUNICATE.
COLLABORATE.
GROW.

Dashboard | Notifications

New Letter
Seen when the specialist sends a new treatment letter.

New Scan
Seen after the specialist uploads a new x-ray.

Crown Date Approved
Seen when a requested crown date is approved by the lab.

New Patient Discussion
Seen when there is a new entry into a patient's discussion board.

New Referral Request
Seen when the specialist requests a referral from the dentist.

Intra-oral Scan Sent To Lab
Seen when the intra-oral scan has been sent to the lab of your choice for crown fabrication. This is your cue to fill out the Rx form under the restoration step.

Implant Integrated - Ready for Impression
Seen if the specialist checks the traditional impression box. This is your cue to schedule a traditional impression with the patient and fill out the Rx form under the restoration step.

Dashboard | Patient Updates

New Patient
Seen when the specialist enters in a mutual patient and assigns them to your office.

Patient Scheduled
Seen when the specialist assigns a surgeon and schedules a patient.

New Referral
Seen when the general dentist refers a patient to the specialist.

Procedure Archived
Seen when a procedure is complete and the "loop" is closed.

Helpful Features of LOOP

1 REFER A PATIENT
Refer a patient instantly, now with the ability to check on the referral's status.

2 PATIENT SEARCH
Cases are at your finger tips with the patient search bar located on the top toolbar.

3 PATIENT PROFILES
Your digital filing cabinet - check the status of your patients any time you please.

4 LIVE CHAT
Chat about anything! Emergencies, quick questions, and everything in between!
